A Kind Old Lady

Messrs. John and Sam Sayers, Robert Dowel, L. L. Jarrett, Egbert Owens, Jothan Brown and others took advantage of cheap rates excursion to Cincinnati Saturday night.

DEAD.—Mrs. Mary Shivel, wife of Ezra Shivel, and daughter of John Flynn. Mrs. Shivel had battled with disease for a long time, but finally had to surrender and bid farewell to earth. There was a large crowd at the funeral services which was conducted by Rev. Stinnett. The bereft ones have the sympathy of the entire community.

A south bound train struck something at Kings Crossing Tuesday night. When they arrived here the pilot of the engine was covered with blood and had a boys saddle on it, which created considerable excitement. The marshal and others went to the scene and found a horse torn to pieces and while searching for the rider, Mr. Lutes came up and said it was his horse which had gotten loose while he was at church.

A SPLENDID REMEDY.

Neuralgic pains, rheumatism, lumbago and sciatic pains yield to the penetrating influence of Ballard's Snow Liniment. It penetrates to the nerves and bone, and being absorbed into the blood, its healing properties are conveyed to every part of the body and effect some wonderful cures. Mr. D. F. Moore, Agent Illinois Central Railway, Milan, Tenn., states: "I have used Ballard's Snow Liniment for rheumatism, backache, etc., in my family. It is a splendid remedy. We could not do without it." 25c, 50c and \$1.00. Sold by all druggists.

In his Memorial Day address at Washington President Roosevelt devoted his time to an elaborate defense of the war in the Philippines and the doings of the army.

A bronze bust of the late President McKinley was unveiled at Philadelphia.

CRAB ORCHARD.

Sam Magee is spending a few days with his mother.

Born, on the 26th of May, to the wife of Dexter Ballou, a daughter.

R. L. Riddle, of Rockcastle, is visiting his relative, Miss Fannie Langford.

Mrs. Dr. Carpenter and little daughter, of Stanford, are visiting Mrs. S. E. Brooks.

Mrs. L. S. Elder has returned home after spending a few days with friends in Richmond.

Dr. J. M. Bruce filled his regular appointment at the Baptist church on the first Sunday.

Mrs. M. E. Rigsby and sister, Miss Maggie Holtzclaw, of Preachersville, visited Mrs. Patten, first of the week.

Mrs. D. B. Edmonston has returned to her home in Louisville, after spending some time here among her many friends.

Rain is badly needed as we have not had sufficient rain to wet the ground thoroughly since the first week in April.

The crowd on Decoration Day was small. Services were led by Rev. K. D. Noax, an old soldier of the war of the rebellion.

Stuart Myers, who has been in Kansas with his daughter, has returned to Crab Orchard, in very poor health. He is stopping at the Gover house.

Mrs. Geo. Elam, of Hammock, who has been in poor health for a year past, is staying at the home of Dr. J. D. Pettus, taking treatment under the directions of Dr. Pettus.

Proprietor J. B. Willis has everything at the Springs Hotel in apple order, and is sending out 1,000 invitations to the "opening ball" which will be given on the evening of June 20th.

Crab Orchard will now have a night mail, for the accommodation of the Springs, beginning on June 6th. The post-office will be open till 9 p. m., instead of closing at 7 p. m., as heretofore.

M. J. Harris and wife have gone to make their home in Louisville, he, having been given a position as watchman at a distillery. Their many friends wish them prosperity in their new home, as they have a large circle of acquaintances here where they were born and reared. They will be missed.

D. B. Rigg, of Franklin, Ind., who spent something over a year here teaching music, is visiting his old pupils, who are very happy to have him among them again. His proficiency as teacher is shown in the rapid progress made by his pupils, especially the Southern Military Band, consisting of 18 young men who now have several calls to play at \$50 per day. They played Wednesday the 4th, at the Berea Commencement.

HAPPY TIME IN OLD TOWN.

"We felt very happy," writes R. N. Bevell, Old Town, Va., "when Bucklen's Arnica Salve wholly cured our daughter of a bad case of scald head." It delights all who use it for Cuts, Corns, Burns, Bruises, Boils, Ulcers, Eruptions, Infallible for Piles. Only 25c. at all druggists.

LEVEL GREEN

The weather has "warmed up" and the frost has melted leaving corn and a few other farm and garden products badly singed, tho' no very serious damage done. Farmers are well up with their work and rain—a good soaker—is very badly needed. Oats and meadows are being cut short and pastures are suffering.

From a letter just received, we are informed thusly: "Born, to the wife of G. A. French on May 24th, South McAlister, Ind. Ter., a boy." This is their sixth son, one having been born in Oklahoma Territory years ago. This will make him one of the first native born white citizens in that Territory.

"Uncle" John Hamm, of near this place, died Saturday morning of cancer on the head, old age and a complication of diseases. Uncle John was about 84 years of age, the son of Ezekiel Hamm who was the son of John Hamm, a revolutionary hero, who emigrated to this country more than a century ago. Uncle John was one of the pioneer members of the Christian Church, having been a faithful and honored member for more than 60 years. He was a true democrat, as most other Hammes were and are, a kind father—A Christian which is the most and best that can be said for any one. He was buried on Sunday in Mt. Pleasant Cemetery attended by a host of loving friends and weeping relatives. His mother, aunt Kizzeah, preceded him only four years, aged 103.

What a contrast in the assemblies at Mr. Pleasant on Saturday and Sunday. Surely the place of mirth can soon be changed into mourning. On Saturday hundreds of men, women, youths and children with festoons of flowers to decorate the graves of departed friends; this being done, they assembled near the old church and after singing appropriate songs by old folks and children and a very able prayer by Mrs. Jennie (Broyles) Gibson, Rev. Wm. Martin preached a short, but eloquent sermon, then came more beautiful and well sung songs; next on program was Sam Brown, who delivered an appropriate speech setting forth the cause and necessities of such gatherings; at the conclusion of which a bountiful and well prepared dinner of all sorts of good things was spread upon the grass, in which all had a right to engage. The repast being over and several "baskets of fragments taken up," the immense audience repaired to the M. E. church near by, a very commodious building tho' not half sufficient to hold the people. Here the exercises were completed and every one went home satisfied "that it was good for us to be here." The entire audience, without a single exception, was well behaved—not a single drunken man there, not a far or discord. Much praise and honor is due Mrs. Gibson and E. C. McQuary, the promoters and engineers of the entire celebration. Long will it be remembered by all who took part or were even present. I thought when I gazed upon the sea of heads and faces before me while Sam Brown was speaking; what would be the first thoughts and words of those who were first interred here were it possible for them to come forth? Surely it would have been "where did all

these people come from?" for this country was very sparsely inhabited 90 years ago.

Many prominent persons from abroad were with us—preachers, lawyers, doctors, merchants, teachers, and our editor who seemed to be gathering one to his list at short intervals.

It is now the purpose of the Woodstock Lodge F. & A. M. to celebrate on the 24th instant.

Betsy had a mess of pease and new potatoes for dinner Sunday—of her own raising.

I have read five newspapers, a great deal in the Bible, eaten two square meals, salted horses and cattle, made a visit, set some tobacco plants, spent much time conversing with my old friend and nabor M. W. DeBord and did much else, besides writing this article, and wasn't kept very busy even then. It is now 5:00 p. m. and has rained a good rain in Possum Hollow since I began writing "Praise the Lord."

I am undergoing a course of treatment prescribed and furnished by "Drs" Larkin Hicks and James Crawford, of Brodhead, and I must say that no one ever experienced a greater change for the better in so short a time. If I continue to improve at the same ratio (Geometrical progression) for another week I'll be well, stout and hearty. I can cheerfully recommend this medicine to S. H. Martin and all such fellow sufferers. I went all over my farm this a. m. with ease—something I have not done before in many months. I experienced relief from the first dose.

Yours respectfully,
BUCK VARNON.

SAVED FROM AN AWFUL FATE.

"Everybody said I had consumption," writes Mrs. A. M. Shields, of Chambersburg, Pa. OIL NOTES

Orus Bower the oil well driller was in town Monday.

The Mt. Vernon Mutual Co., have important negotiations afoot.

Dr. Lovell was over at Junction City Wednesday on oil business.

The deepest oil well in this country is being drilled at West Elizabeth, Pa. It is down now 5,600 feet and will be put to 6,000. The cost will be about \$40,000.

There are many lines of business which requires more or less time to get started up. The oil line is one of them. Our local oil companies are going at things in a business way not just letting matters drift along but are properly preparing for the work and when drilling begins they will not stop for the lack of funds.

The Rockcastle Oil and Gas Co., the original promoters in this county, has within the past week an accurate map of their leases covering ten different localities in this and pulaski counties, running from 175 to 1875 acres amounting to something like 7,000 acres of choice oil lands. The map was made by our townsmen James Maret, who is an apt hand at the business. This company is negotiating with companies who will begin work in the near future, developing our territory.

Adjoining Counties.

Somerset is to have a fair.

The following from the Richmond Climax shows the town of Berea to be on a boom: "Berea is on a boom. In spite of the heavy losses by fire during the past year the little town is enjoying a rapid and steady growth. The money has been subscribed for a handsome new church to take the place of the old chapel which was burned a few weeks ago. A large brick yard is being made the machinery for which is now on the ground. A \$40,000 electric plant will soon be installed which will give the town a metropolitan appearance. Many other improvements are being made so that Berea will take a front seat among the towns of this section."

CONSTIPATED BOWELS.

To have good health, the body should be kept in a laxative condition, and the bowels moved at least once a day, so that all the poisonous wastes are expelled daily. Mr. G. L. Edwards, 142 N. Main St., Wichita, Kansas, writes: "I have used Herbine to regulate the liver and bowels for the past ten years, and found it a reliable remedy." 50c. Sold by all druggists.

Edison, the wizard has perfected a storage battery that will revolutionize the electric business in many lines.

HIATT

J. M. Cress, the hog man, is here again.

Mrs. Mary _____ has been quite ill for some time.

Mrs. H. _____ is very low at this time.

J. J. Smith _____ of Rush Creek last week _____

Miss Ida _____ is spending this week _____ in Berea.

V. Smith _____ and your correspondent were in Lancaster last Monday.

Mr. Burdette Houk, of Mt. Vernon, was here last week looking for a school.

Quite a number from this vicinity attended the Commencement at Berea Wednesday.

Rev. J. C. Carnical filled his regular appointment at Oak Hill Saturday and Sunday.

Elijah Brock and wife, of Copper Creek, were the guests of J. Boyd, Sr., and family Sunday.

Mr. Fred Johnson, of Berea, was visiting his grandmother, Mrs. Mary Duvall, Saturday and Sunday.

Mr. Lester Hilton, one of Brodhead's brightest young men, was the pleasant guest of H. B. McClary Sunday.

Miss Etta Hayes and Mr. Sandford Coffey, of Wildie, attended church here Sunday, wearing the lover's smile.

Miss Florence Pritchette has returned to her home in Danville, after a month's stay with her sister, Mrs. Mollie Hiatt.

Mr. Harry Giovanoli, private secretary to Commissioner John W. Yerkes, writing to the Danville Advocate, has the following to say of Alaska: "Alaska is the coming country. Some of the finest wheat land on earth is there. This has been demonstrated by actual experience, and as the country is more and more explored, its magnitude and resources become more and more apparent. Says a gentleman who is conversant with that territory: Alaska is going to play an important part in the history and the development of the United States. In area it is almost as big as the country east of the Mississippi, and its resources are not confined to mining—a large section of it is adaptable to agriculture, and big enough to make two or three farming States, while its wealth in fisheries is enormous. At no great distant time there will be a large population in Yukon Valley, and people who think that Alaska is only habitable for icebergs and polar bears are very much mistaken. The region has the largest river in North America, the Yukon, and the highest mountain, Mount McKinley. No white man has ever reached Mount McKinley—its altitude was measured by triangulation at a long distance away—but when we have reached the North Pole it will offer a new field for our explorers."

President Mitchell, of the United Mine Workers, says the anthracite strike seems as far from settlement as ever.

"OLD HICKORY" CHIPS.

(By Our Associate Editor.)

THE fool-orator was at large again
last week, with the usual result—
inappropriate speeches.

TEDDY doesn't have to put his
ear to the ground now to know
that the Hanna machine has taken
the road.

NORWITHSTANDING his Southern
blood, Mr. Roosevelt has shown
that he is not averse to shaking the
"bloody-shirt."

It is a great consolation to sensi-
ble Americans to know that they
are not responsible for the fool-
auties of the politicians in
Europe.

It is probable that his
administration will help re-
publican candidates in Congress
that Mr. Roosevelt to make
stump speeches.

Senator McLaughlin is being
a life job, on the bench, for trying
to make a white republican party
in South Carolina. He will be large-
ly overpaid, considering the result
of his attempt.

SENATOR HOAR hit the republic-
ans hard when he said the policy
they were defending in the Philip-
pines was supported "by all the
wicked precedents which can be
found in the lives of good men."

KING EDDY is feeling his oats.
He has quarreled with his prime
minister for refusing to recommend
a male favorite for a peerage, and
with the mistress of the robes for
refusing to invite a female favorite
to dinner.

SENATOR CARMACK is right.
The real question at issue is wheth-
er the charges against "Hell-roar-
ing Jake Smith," and other officers
in the Philippines, are true or not.
No amount of republican jugglery,
either on the part of the President
or Senators, can change the issue.

Oh, no! the republicans are not
afraid. It was confidence which
caused them to decide to wait for
the democrats to make the issues
of the Congressional campaign.
Democrats will simply force the
issues that have already been made
by the republican Congress and
administration.

SECRETARY MOODY was frank
enough in a partisan speech to say
of the administration policy in the
Philippines: "We cannot point to
accomplished facts. We can only
hope and strive and believe." One
of the reasons why the voters are
going to elect a democratic Con-
gress this year is the republicans
cannot point to accomplished facts
in the Philippines.

TEDDY is about to give his chum,
Lenny, another boost up the army
ladder. In Washington it is
regarded as a certainty that Gen.
Leonard Wood will be promoted to
one of the vacancies that will be
made by the retirement, in July,
of Major Generals Wheaton and
Brooke. It will be necessary to
jump Wood over the heads of many
capable and deserving officers to
do this, but that has already been
done several times.

Mr. Frank W. McKee, of Wood-
ford county, on Monday delivered
207 lambs averaging 70 lbs. that he
sold to Mr. Jones, of Georgetown,
at \$6.10. Frank matured 307
lambs from 194 ewes, an average of
more than 1 1/2 lambs per ewe,
which is the best showing we have
heard of.

Mo. It is reported that Deputy
U. S. Marshal John Mod Mullins,
of Crooked creek, has a well de-
veloped case of small-pox, con-
tracted while at Catlettsburg, Ky.

ism, Slight of Hand &c., which
was very good, at the school house
Monday and Tuesday evening.
There were good crowds out and
everyone seemed to enjoy them-
selves. Interested but not con-
vinced, but what it was all shame.
About forty members of the Iri-
quois Tribe of Red Men, of Pitts-
burg, visited this place Sunday, for

HANSFORD

Eggs are worth 12c. this week at
Niceleys.

J. W. Kirby makes a splendid
mill boy for this community.

Lasalle Doan, of near the Pulaski
side, was over to see his girl, Miss
Pearly McKinney, Sunday.

E. Bullock, Jr., has been in home
for a few days, but contemplates
going to Wayne county next week.

Strawberries are not so plentiful,
but Dad McClure says he counted
125 in one patch Saturday.

E. Bullock, Sr., who is suffering
with cancer on the breast, is report-
ed to be in a very serious condition.

W. G. Nicely had fresh fish Sun-
day last, some refused to buy on
account of eating too many last
Spring, when fish were cheap.

A new school house is to be built
at this place. Here is a job for
some good man who is a carpenter.
The contract will be let Saturday
June 7th.

There were several of our girls
and boys attended the Decoration
of the graves at the old Mt. Pleasant
church Saturday, exercises were
all carried out nicely as we all ex-
pected as I was along with the boys.

In the issue of May 23 from Liv-
ingston was a mistake. Green
Kirby has no wife; just wants one
and he is not the only one. Wade
Graves is watching on every corner;
says he can't finish his crop with-
out a cook.

Uncle Lige Childress, deputy
constable and town martial, who
went through the civil war and was
noted for his swiftness on foot, let
Jas. P. Barnes get away last Mon-
day but there was a race in the
time of it.

WARD

C. W. Mason was here Friday.

James Norton peeled 125 cords
of tan-bark this Spring.

People are up with their work but
rain is needed very badly.

Squire John Hibbard has been
sick, but is better, we are glad to
say.

Albert Teague will, probably,
teach the public school here again
this fall.

J. Lewis Cooper is smiling.
There is a very nice young lady,
nearly a week old at his house.
Mother doing well.

We had a very unfortunate acci-
dent on the river Saturday. Uncle
Rubin Fournier, a prominent
farmer and good citizen of this
section, while exhibiting a revolver
to one Nathan Burdine for the
purpose of "swopping" guns, acci-
dentally discharged the weapon, a
38 caliber, and the bullet entered
the face of Burdine one and a half
inches below the right eye and
ranged down into his neck, inflict-
ing a very dangerous wound.

VIRULENT CANCER CURED.

Startling proof of a wonderful
advance in medicine is given by
druggist G. W. Roberts of Eliza-
beth, W. Va. An old man there
had long suffered with what good
doctors pronounced incurable can-
cer. They believed his case hope-
less till he used Electric Bitters
and applied Bucklen's Arnica Salve,
which treatment completely cured
him. When Electric Bitters are
used to expel bilious, kidney and
microbe poisons at the same time
this salve exerts its matchless heal-
ing power, blood diseases, skin
eruptions, ulcers and sores vanish.
Bitters 50c. Salve 25c. at all drug-
gists.

The administration is exploiting
the testimony of a Filipino on its
salary list, but it has refused to al-
low those who would speak with-
out prejudice to be heard.

Land, Stock and Crop

It is said that Morris Therkeld's
wheat will make 30 bushels to the
acre. He has led the county on
wheat yield for fifteen years.
Messrs. Basil Mitchell and J. G.
Mallon tell us that the average yield
in the county this year will not
exceed 5 bushels to the acre.
Harrodsburg Herald.

Last Saturday W. T. Phelps sold
to Greene & Turley for delivery
last fifteen days in August 70 head
of fat cattle. The cattle will weigh
about 1450 pounds and brought
\$6.50 per cwt. It is predicted that
cattle of this kind will bring \$7 per
cwt. in this county before Septem-
ber.—Mt. Sterling Advocate.

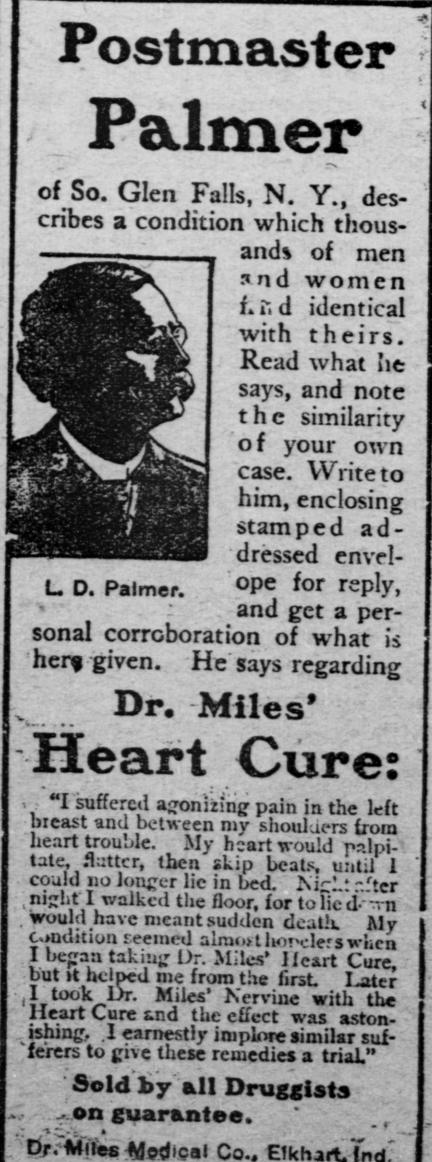

The changed conditions of stock
raising in this country are well illus-
trated by the dispatch printed be-
low. A few years ago the Texas
steer was a hissing and a byword.
The dispatch says: Another new
record price for cattle at the Kan-
sas City stock yards was recorded
Wednesday when two cars averag-
ing 1,475 pounds sold at \$7.50, the
highest price ever paid here. Thirty
prime heavy steers, averaging
1,636 pounds, sold yesterday at
\$7.40, which was the highest price
reached on this market since 1882.
Two car loads of 1,100 pound
steers sold for \$6.80, a record
breaking price at the stock yards,
and, weights considered, the highest
price paid at any market. The
cattle were shipped from Walnut
Grove, Texas.

HOT WEATHER WEAKNESS.

If you feel fagged out, listless
and lacking in energy, you are per-
haps suffering from the debilitating
effects of summer weather. These
symptoms indicate that a tonic is
needed that will create a healthy
appetite, make digestion perfect,
regulate the bowels and impart
natural activity to the liver. This,
Herbine will do; it is a tonic, laxa-
tive and restorative. H. J. Free-
gard, Propr. Grand View Hotel,
Chewey, Kan., writes: "I have

If you will study your own faults more, and other people's less, you will in the end inherit forgiveness. Paste a copy of this in your hat and on mirrors about your house and you will not go wrong.

Sam McClure, familiarly known as "Old Cull," who has been seriously ill is able to be around again, accompanied by a walking stick. If a person had the blues and was thinking of committing suicide, or some rash act, could hear Cull's hearty good humored laugh he would change his notion and wish to live on.

Mr. Bowman, who purchased and moved to the Joe Joplin place, is a valuable citizen to any community. He is a worker and besides his hearty handshake and genial humor is sufficient to drive the blues from any crowd with which he may be mingling. There is room here for more like him. Let 'em come.

Mr. F. D. Hart, proprietor of Cumberland Hotel, Middlesborough, was here yesterday looking over the ginseng gardens of S. C. Franklin, with a view to negotiating for several thousand plants and seeds for a nursery that he contemplates establishing in his home town.

Ernest Ewers, who is taking a course in a Louisville business college, is making fast progress. His teachers say he is a remarkable student, having accomplished three week's work within the space of seven days, being the best record of any student that has attended that institution.

F. L. Thompson is in Louisville. C. C. Williams went to Williamsburg yesterday.

Uncle Albert Fish carries the most elaborately carved walking stick we have seen for many a day. It cost \$12 in the City of Mexico and its a beauty.

Dr. M. L. Myers our splendid dentist is an all around man. He is an expert machinist which trade he learned in a number of years experience in machine shops in Covington. He can make first class photographs and does considerable work in that line between his busy moments. The Doctor is a citizen of whom Mt. Vernon is proud to have remain in her midst.

George Fredericks has placed pump in the old public well at corner Main and Church streets, near court house, and is keeping it on the go, so workmen can move mud and sand from the well. This old watering place has been closed and out of use for past 25 or 30 years. The County Court is having this much needed work done which will prove a great convenience to the public generally.

LOCALS

Court adjourned Wednesday afternoon.

The grand jury returned 27 indictments.

The Langford quarries are rushed with orders.

Our three lime companies are doing a good business.

Several from this place took in Sundays excursion to Cincinnati.

This division of the L. & N. is doing the biggest business in its history.

FOR RENT.—A dwelling on South side Main street. A very desirable place. Call at this office.

Beasley and Hayes, Stanford, Ky., is the place to buy your new carpets. apr. 11 tf.

The post office at Barboursville was robbed Monday night of about \$900 in money and stamps.

There was a hung jury in the Wyatt Allen case, charged with the murder of Squire James Gatliff.

SMALLPOX.—John C. Mullins has smallpox at his home near Withers. Those exposed have been isolated and there is not much danger of a spread of the disease.

Rugs, Carpets, Matting and every thing found in a first class furniture store. Also a full line of Undertakers goods.

BEASLEY & HAYES, apr. 11 tf. Stanford Ky.

The twice a month excursions given by the L. & N. are proving to be quite popular. The extremely low rate gives an opportunity to the masses to see the sights of a large city steamboats, electric cars, the Zoo garden and hundreds of things they may have read of but never seen. To see the bridges across the Ohio is alone worth more than the small fare charged for passage.

Our local telephone people have given and are giving accommodations to its subscribers beyond that given by any company any where in the state, there are found knockers and kickers who it is believed wouldn't be satisfied with free service and a gold piece thrown in the first of every month. It takes some coin to run any business and all should understand that the telephone is not being run for the fun there is in it.

The roofs of the court house and residences of Drs. Myers, Williams and Lovell are shining up under a new coat of paint.

F. H. Hardy, the lime man, at White Rock, just East of town is running his kilns on full time and is furnishing a very fine grade of lime.

The Lincoln County Telephone Co. is at work on their Stanford plant and will put in one of the finest outfits than money can procure.

CELEBRATION.—Woodstock Lodge F. & A. M. No. 639 will celebrate St. John's day, June 24. A special programme is being arranged and a general good time is expected.

Henry Brumett was given one year in the pen for cutting W. H. Carmical at Livingston some time ago, but at the request of Mr. Carmical, it was reduced to a \$100 fine.

Whitehead's planing and saw mills have been busy since the rains furnished water. A pipe line will shortly be laid from the mill to the Adams spring after which the machinery can be run any day in the year.

CONVENTION.—There will be a Sunday school convention at Flat Lick, Pulaski county fourth Sunday in July. The Eden and Pleasant Run Sunday schools will be entertained by the Flat Lick Sunday school.

The greatest one man show that has visited our place for a long time exhibited here Friday and Saturday nights. Prof. Clark was the name given by the shoeman. He gave the worth of the price of admission to his performances.

There are some respectable side walks in our place while there are others that are a disgrace and to walk over them after dark is a dangerous undertaking. Unbroken niggerhead rocks would be an improvement over some of the so called pavements.

Robt. Ping has returned from a nine months tour with Spark's Shows lately returned to Indiana after making the rounds of the southern states including Florida and Texas. Two colored boys from this place George Hiatt and Joe Joplin also made the trip.

But few 17 year locusts have raised their voices in this locality, up to this date. They have been yelling in Louisville and some other parts of the State for fifteen days. They will have to get a move on themselves if they expect to take advantage of the forty day limit placed upon their visit.

Miss Bessie Poynter is a natural artist. She has never taken a drawing lesson, yet she takes up a pencil and depicts pictures of persons, animals, buildings, landscapes etc., with remarkable fidelity. A sketch she made of Judge Morrow and his jury before him, during the past week was a splendid production. This little artist will be heard from.

Our undertaker, Willis Griffin, whom everyone knows to be one of our best citizens, deserves credit for his enterprise in making the investment, several months ago, in a fine hearse, when he knew it would take some years to get the returns on his money. Such citizens as Mr. Griffin are of vast benefit to any community in which they live.

Senor R. E. Bottemus arrived here Tuesday morning from Terrapati, Peru, South America, to visit his friend Bert Whitehead, with whom he had much experience, including many dangerous adventures in the far South in the mining and railroad business. Mr. B. will remain but a few days before starting on his return trip. The friendship between these gentlemen was established during the period when they underwent many hardships together in the pioneer days of railroad building in the Southern hemisphere. Their experience, if written would fill a large volume and prove quite interesting to all readers, especially those of Rockcastle.

MARRIED.—Jessie Proctor and Miss Pearl Coffey were married last Wednesday.

The Rev. J. W. Masters delivered a very interesting lecture at the Christian church last night.

"Johnny Green," the footless darkey has been absent for some months but like bad money he will show up sooner or later.

LAUNDRY.—The basket for the Lebanon Steam Laundry will be kept at Krueger & Sons' store in the future.

COSSIE SUTTON, Agt.

Rev. Jeremiah Singleton and Mrs. Margaret Brown were married, near Wildie Tuesday afternoon, Judge Durham officiating. The parties had never met before last Sunday. Their ages is said to be beyond the sixty mark. He is a Baptist. Judge Durham, of telephone fame, tied the knot.

A partition has been run through grand jury room, walls wainscotted papered and wood work hard oiled. The grand jury's headquarters have been moved to the County Judges room. The County Judge and County Attorney have moved into the newly repaired offices and are fixed up snugly for dispensing justice.

Bill O. Buford accidentally shot and fatally wounded Elijah Morris a sixteen-year-old son of Robert Morris near Orlando Tuesday morning. The boy lingered until Wednesday morning. From information we can gather it seems that Buford was snapping a pistol, under the impression it was not loaded. The boy returning from work in field happened to come in range of the pistol when it fired.

J. J. Baker was here Wednesday and says he will push a movement for establishing a telephone line down East Fork of Skaggs Creek from Mt. Vernon. This enterprise was talked of some months ago and sufficient funds subscribed to build the line as far down as the Richard Southard place. While all were anxious to have the line built it was left to others to carry it out. It requires some one to take the matter up in a business way when ample capital and supplies will be forthcoming.

Two new phones were placed Monday W. R. McClure 78-2 and A. Pennington 52-3. Poles of ample length are on grounds for rebuilding Mt. Vernon exchange and stringing many more wires and our town will have 50 phones by August. Livingston will have as many Brodhead a dozen or more. More wires will be strung from this place to Brodhead and Livingston as well as from Lancaster to Livingston. The system is being improved and added to as fast as possible and Rockcastle is going to have as fine telephone facilities as are found anywhere and at very low rates.

There has never been a paper published, that amounted to anything that didn't apparently at times step on the toes of some one. If it didn't it would be a soft potato and in the long run wouldn't amount to a hill of beans. While this paper desires to retain the friendship of all, it proposes to go along, give the news fairly and justly and should any error or mistake be made it will cheerfully be explained or corrected. We will give the news. If it worries some people they should understand that it is not done through malice or prejudice at all but for information to the public which it is entitled to.

One of the model boarding houses in this place is that at the residence of Abel Pennington, near Baptist church. Mrs. Pennington has charge of looking after comforts of the house from the fact that Mr. Pennington is chief clerk in U. G. Baker's big store, leaves the management of house affairs in the hands of his wife who is one of our best business women and has the knack of making her guests feel at home and furnishing any abundance of good things on the table. They had a large patronage during Circuit Court. A telephone in the house adds much to the convenience and accommodation to guests.

LOCALS CONCERNING MT. VERNON, AS IT WILL APPEAR IN THE YEAR 1918.

The Signal has moved into its handsome new quarters on corner of Cherry and Poplar streets two squares West of Williams street. An entire new outfit has been added including a perfecting press, accessories, linotypes etc. Foreman Soward and his excellent assistant, Alex Pennington are doing double duty to keep things going. Their large force of well trained employees are kept on the hustle.

F. L. Thompson, Jr., has secured a position as conductor on the Central Electric road running from Monticello to McKee, Jackson county. "Brother" is a hustler.

Mt. Vernon has as fine educational institutions as can be found in the state.

Bragg Thompson is now general manager of the Great Eastern Oil Company with headquarters in Mt. Vernon. Their office is in the Poynter building No. 143 Mulberry street.

Owing to too much pressure being put on over the pipe line of the Mt. Vernon Mutual Co's line from their wells in the Freedom neighborhood Monday morning a section gave way near tunnel No. 1 in the edge of town and but for excellent telephone facilities there would have been a big loss of oil and probably much destruction of property and loss of life.

The Rockcastle O & G Co., "had three big wells to 'come in' this week." One near Conway, one near Jep Mullins, just beyond Level Green and another on the Jeff Nichols farm near Cedarville.

The Oxford Refining Co. has purchased of Dr. Lovell and W. H. Cocks their lands lying on town branch and are at work putting in a big plant.

S. C. Franklin the rich old "gingering" nurseryman refuses to sell his grounds at any price. Says he don't have to sell. Some think Mr. F. ought sell others say he has a right to do as he pleases with his own property. The Oxford company wants it for purpose of erecting an immense office building.

The Crab Orchard and London Electric road is doing an immense business. Claud Cox is general manager.

John Watson Brown at one time a leading lawyer at this bar came in from Aurasas Pass, Texas Wednesday on his automobile the "Mustang." He was only eight days on the road and came in via St. Louis. He will remain a week and will look over his vast oil interest while here.

The M & M Electric line brought in a full train of lead ore this morning from the Goochland mines.

Several accidents have occurred to electric vehicles on North East side of Town Hill where the turn in pike is very abrupt. Suits against the county will probably be brought on "the claim" that "the curvature is not up to legal specifications.

Omer Purdom has been "put" in charge of the Overland wireless telephone station at this point.

Luckily no lives were lost when the explosion of nitroglycerine occurred on Town Hill, Tuesday afternoon, at the factory. Will Prewitt was thrown something like seventy five feet and alighting on his walking props in good shape, faced about and remarked "you didn't touch me."

Chester Landrum has charge of the big dynamos at the electric light plant.

One of the telephone subscribers raised a big rumpus because his call was not answered by the exchange within 2½ seconds after turning in the call.

Conn Brown refuses to take a slow wagon like the "Mustang," owned by his father in making trips from Texas to Mt. Vernon, but takes the fast flyer air ship line. Conn dropped off here this afternoon from the "Meteor" belonging to the company in which considerable stock is held by citizens of this place.

Ben Parrett, book keeper for the Consolidated Oil Company was over at McKee Sunday.

The National Oil Company has secured the services of Abel Pennington Jr., as field manager to look after leases and other work.

Sherley Tate and Logan D. Taylor, have nice positions on the few electric line from Richmond to Mt. Vernon and Somerset.

There is considerable complaint against the oil refineries and storage tank people on account of the springs and wells around town being strongly impregnated with an oily taste. These people claim that it is no fault of theirs but comes from the well lately drilled on a lot near Griffins old mill. The matter is being investigated and the trouble will be traced to its source.

Jerry Frith an old time merchant and lumberman come into town at a rapid gate yesterday afternoon on a brand new automobile and dismounted in front of court house. Bystanders called his attention to the fact that his machine was minus one wheel. It is thought by many that Jerry could run a machine with a single wheel or even with no wheels at all.

The famous Mullins band gave a concert last night at opera house to a crowded but delighted audience. Tickets for tonight have all been sold and there will not be standing room left.

The fight between our street railway people and the L & N over the crossing on Richards street has been settled and the line over that street will be open at an early date.

Mr. Arch Furnish for many years with the Bank of Mt. Vernon, one of our solid institutions, is now cashier of the Oil National Bank at 210 Elm street this city.

Dora Bartlett, a notorious woman was given a life sentence for killing Joseph Mahalek at Terre Haute.

How To Gain Flesh

Persons have been known to gain a pound a day by taking an ounce of SCOTT'S EMULSION. It is strange, but it often happens.

Somehow the ounce produces the pound; it seems to start the digestive machinery going properly, so that the patient is able to digest and absorb his ordinary food, which he could not do before, and that is the way the gain is made.

A certain amount of flesh is necessary for health; if you have not got it you can get it by taking

Scott's Emulsion

You will find it just as useful in summer as in winter, and if you are thriving upon it don't stop because the weather is warm.
